

(Area omitted from the end of Item 6. Item 7 starts at bottom of the page.)

ITEM 7
ESTIMATED INITIAL INVESTMENT

Below are estimates of your initial investment with respect to three prototypical Restaurants. These estimates are subject to modification based upon the Restaurant's location, our cost of providing services, and any future policy changes. In addition, if you do not already own space adequate for a Restaurant, you will have to purchase or lease land and/or space for the Restaurant. We cannot estimate your initial investment for any particular Restaurant which is not prototypical.

Prototypical Free-Standing Restaurant

Free-Standing Ground-Up Construction

Typical free-standing restaurants are generally around 1,500 to 2,052 square feet. Typical free-standing restaurants will require from 23,000 to 40,000 square feet of land for a 1,500 square foot restaurant or 35,000 to 40,000 square feet of land for a 2,052 square foot restaurant and sufficient parking facilities (including average setback requirements) designed to accommodate approximately 22 to 30 motor vehicles. Typical land costs could range between \$10.00 to \$28.00 per square foot of land. However, a free-standing site in a shopping center or on a major highway or thoroughfare will cost more than an end-cap in a shopping center or a building in a smaller community. Typical site preparation costs (including paving) could range between \$5.50 to \$9.00 per square foot of the land. Accordingly, typical land costs could range between \$230,000 to \$1,120,000 for 23,000 to 40,000 square feet of land (1,500 square foot restaurant) or \$350,000 to \$1,120,000 for 35,000 to 40,000 square feet of land (2,052 square foot restaurant), and site preparation costs could range between \$126,500 to \$360,000 for 23,000 to 40,000 square feet of land (1,500 square foot restaurant) or \$192,500 to \$360,000 for 35,000 to 40,000 square feet of land (2,052 square foot restaurant). Finally, Typical construction costs of the building could range between \$300.00 to \$400.00 per square foot of the building. Accordingly, typical construction and finish-out costs for this type of construction could range between \$450,000 to \$600,000 for 1,500 square foot restaurant or \$615,600 to \$820,800 for 2,052 square foot restaurant.

Type of Expenditure ⁽¹⁾	Amount	Method of Payment	When Due	To Whom Payment is to be Made
Initial Franchise Fees ⁽²⁾	\$30,000	Lump Sum	When you sign Franchise Agreement	Us
Site Evaluation Fee ⁽³⁾	\$0 - \$2,500	As Arranged	As Arranged	Us
Other Site Selection Assistance	\$0 - \$1,000	As Arranged	As Arranged	Approved Suppliers
Furniture, Fixtures, and Equipment ⁽⁴⁾	\$250,000 - \$300,000	As Arranged	As Arranged	Approved Suppliers
Signs and Menu Boards ⁽⁴⁾	\$50,000 - \$150,000	As Arranged	As Arranged	Approved Suppliers
Delivery and/or Catering Vehicle(s) ⁽⁵⁾	Variable	As Arranged	As Arranged	Approved Suppliers
Initial Training Costs (travel and living expenses) ⁽⁶⁾	\$15,000 - \$45,000	As Arranged	As Invoiced	Airlines, Hotels and Restaurants

Insurance ⁽¹⁵⁾	\$750 - \$7,500	As Arranged	As Arranged	Insurance Broker
Additional Funds ⁽¹⁶⁾	\$10,000 - \$30,000			
TOTAL ⁽¹⁷⁾	\$993,750 - \$1,852,800			

Free-Standing Conversion

You may purchase an existing facility if such facility can be adequately modified in accordance with our design and layout plans and specifications for a prototypical Restaurant. Typical free-standing restaurants to be converted are generally 1,600 to 2,400 square feet and have access to sufficient parking facilities to accommodate approximately 22 to 30 motor vehicles. Typical construction improvement costs could range between \$281.25 to \$270.83 per square foot of restaurant. These improvement costs are based upon adapting our prototypical architectural and design plans (including architect fees) to a facility containing approximately 1,600 to 2,400 square feet. In addition, you will be paying the higher amount if you are responsible for providing connections to adequate electrical, gas, water, and sewage services. Accordingly, typical construction and finish-out costs for this type of construction could range between \$450,000 to \$650,000.

Type of Expenditure ⁽¹⁾	Amount	Method of Payment	When Due	To Whom Payment is to be Made
Initial Franchise Fees ⁽²⁾	\$30,000	Lump Sum	When you sign Franchise Agreement	Us
Site Evaluation Fee ⁽³⁾	\$0 - \$2,500	As Arranged	As Arranged	Us

Insurance ⁽¹⁵⁾	\$750 - \$7,500	As Arranged	As Arranged	Insurance Broker
Additional Funds ⁽¹⁶⁾	\$10,000 - \$30,000			
TOTAL ⁽¹⁷⁾	\$865,250 - \$1,455,000			

Prototypical End-cap Restaurant

Typical end-cap restaurants are generally 1,800 to 2,400 square feet and have access to sufficient parking facilities to accommodate approximately 22 to 30 motor vehicles. Typical leasehold improvement costs could range between \$225.00 to \$270.83 per square foot of restaurant. These leasehold improvement costs are based upon adapting our prototypical architectural and design plans (including architect fees) to a facility containing approximately 1,800 to 2,400 square feet. In addition, you will be paying the higher amount if you are a first-generation tenant who is responsible for providing connections to adequate electrical, gas, water, and sewage services. Also, your landlord may provide an allowance for tenant improvements, but you cannot assume that you will be receiving any amount. Accordingly, typical construction and finish-out costs for this type of construction could range between \$405,000 to \$650,000. In addition, you will be responsible for rent and a security deposit. Your annual rent for leased space will vary based upon a variety of factors such as whether the Restaurant is located within an existing retail business (e.g., shopping mall), the quality of the retail business, the quality of the site and the surrounding trade area and market factors such as availability of land and comparable sale price and lease rates. Although the amounts will vary significantly due to your negotiations with your landlord, your typical first month's rent and security deposit could range between \$10,000 to \$18,900.

TOTAL ⁽¹⁷⁾	\$810,250 - \$1,393,900			

Notes:

(1) The cost of land, site preparation, leasehold improvements, finish-out costs, and remodeling a Restaurant vary substantially, depending upon the lot size, geographic area, previous use and condition, market conditions, the amount of site preparation necessary (including paving), and type and quality of site preparation materials utilized. Your costs may or may not include site preparation and finish-out costs, depending on the arrangements you negotiate with your seller or landlord. In addition, labor and material costs may vary significantly due to variations in wage rates, labor efficiency, union restrictions, and availability, type, and price of materials.

- (2) The initial franchise fee in all areas is \$30,000. See Item 5 for more information about the initial franchise fee. If you are a VetFran Participant, the initial franchise fee for your first Golden Chick Restaurant shall be reduced by 33.33% of our then-current initial franchise fee. See Items 1 and 5 for more information about being a VetFran Participant.
- (3) If you have not located and obtained our approval for a site prior to the execution of the Franchise Agreement, then you may be required to pay us a non-refundable Site Evaluation Fee totaling \$2,500 prior to our conducting a preliminary site evaluation.
- (4) These amounts include the cost of the furniture, fixtures, equipment, smallwares, decor items, interior graphics, sound system, and building signage required for your Golden Chick Restaurant. The cost of signage will vary depending on the restrictions as to size and specifications imposed by your landlord and local ordinances.
- (5) Any vehicles you utilize for delivery and/or catering services must be equipped per our specifications. We cannot estimate your cost for these vehicles due to a variety of factors including which services you offer, the use of third-party vendors for those services, the number of vehicles used, whether you purchase or lease the vehicles, and the size and market conditions of your Assigned Area (as defined in Item 12 below).
- (6) These amounts represent your estimated training-related, out of pocket costs to send these individuals to our training program; wages are not included. You must pay all expenses you or your employees incur in the initial training program, like travel, lodging, meals, and wages. These costs will vary depending upon a variety of factors including salaries, wage rates, choice of hotels and dining facilities, and airfare or other transportation costs. The low amount assumes that all trainees are owners/operators who draw no salary and who reside in the greater Dallas/Fort Worth area.
- (7) This amount includes the purchase of the computer and POS systems from an approved third-party supplier and the installation by us.
- (8) This estimate includes the cost of food, beverages, condiments, packaging, and other supplies for approximately the first two to ten days of operations.
- (9) This estimate includes the cost to hire an architect approved by us to adapt our standard plans and specifications to site and to local and state laws, regulations, and ordinances. An engineer ordinarily will be required only for new construction, conversions, surveying, soil tests, environmental studies, and electrical and mechanical engineering. An architect or engineer will also be required to supervise the construction and improvements to the restaurant premises. The amount of architect/engineer fees may be lower if a developer or landlord is assuming some of these charges. Because of numerous variables affecting whether a developer or landlord assumes some of these charges, these initial investment tables do not reflect any potential reduction in these charges.
- (10) The cost of purchasing real estate for a Restaurant will depend upon factors such as location, size, visibility, economic conditions, accessibility, competitive market conditions, and the type of ownership interest you are buying. Because of numerous variables affecting the value of a particular piece of real estate, these initial investment tables do not reflect the potential purchase cost of real estate.
- (11) The cost of leasing commercial space for the Restaurant depends upon location, size, visibility, economic conditions, accessibility, competitive market conditions, and other factors including whether the Restaurant is an in-line or freestanding unit.

(12) Site preparations include site improvement costs such as sewer, electrical, water, storm water, paving, striping, concrete, landscaping, grading and excavation, and site accessories.

(13) Construction and finish-out costs includes improvements to the location where you will operate your Restaurant. Among other things, you will need to arrange for proper wiring and plumbing, floor covering, wall covering, partitions, heat, air conditioning, lighting installation, storefront modifications, painting, cabinetry, bathroom facilities, etc. as outlined in your architectural drawings.

(14) This estimate covers professional and state filing fees for forming a business entity, and professional fees for engaging an attorney and an accountant to assist you with your franchise purchase. The cost of professional services can vary widely, depending upon factors such as locality, the extent of the assistance you require and other local circumstances (i.e., zoning, permits, and licenses).

(15) This amount represents an estimated down payment of your annual insurance premiums, equal to two months' payment. See Item 8 for a description of your minimum insurance requirements. Your cost of insurance will vary depending on the insurer, the location of your Restaurant, your claims history, and other factors, including if you provide delivery services. The amounts given do not include estimates for the automobile liability insurance required under the Franchise Agreement. If you offer delivery and catering services under the terms of the Franchise Agreement, we estimate that the annual premiums for each motor vehicle which you utilize will range from \$1,500 to \$2,500. Automobile insurance rates may vary substantially as described above.

(16) You will need capital to support ongoing expenses, such as employee wages, utilities, payroll taxes, legal and accounting fees, travel, advertising, promotion, outside services, linen, operating supplies, small equipment, maintenance and repair, office supplies, cash shortages, insurance, debt service, and non-product purchases, as well as additional opening capital for other variable costs. These figures are estimates for the first three months of operation and we cannot guarantee that you will not have additional expenses starting the business. Your costs will depend on factors such as how well you follow our methods and procedures; the sales volume of your restaurant; your management skill, experience, and business acumen; local economic conditions; the local market for our product; the prevailing wage rate; competition; your rent or debt structure; and whether your restaurant is not a typical location.

(17) Total expenditures are exclusive of any amounts which are designated as variable or not applicable.

We relied on the experience of our affiliates' company-owned Golden Chick Restaurant to compile these estimates. Restaurants opening in cold weather months may be more likely to need capital in the initial 3-month period because restaurant sales are typically lower. You should review these figures carefully with your business advisor.

* * *

As your primary obligation under the Development Agreement is to open and operate multiple Golden Chick Restaurants under separate Franchise Agreements and in accordance with the Development Schedule, we anticipate that your initial investment relating to the Development Agreement will be comparable to that described above. Please note however that, as described in Item 5, at the time you sign a Development Agreement, you must pay a development fee of \$9,000 for each Golden Chick Restaurant to be developed, sign a Franchise Agreement, and pay an initial franchise fee of \$30,000 for the first restaurant to be developed. You will pay an initial franchise fee equal to 60% of our then-current initial franchise fee upon signing a Franchise Agreement for each additional restaurant to be developed. You will receive a \$9,000 credit for each of the initial agreed upon number of Franchise Agreements executed under a Development
